I. Learning Objectives:

A. To become familiar with factors producing good health (as well as poor health);
B. To gain knowledge of the social factors contributing to one’s health condition;
C. To gain knowledge of the social consequences that occur as a result of one’s health condition;
D. To understand the U.S. health care system including its organization, financing, and delivery;
E. To be familiar with the health care systems in other countries.
F. To understand the Affordable Care Act and the Inflation Reduction Act of 2022 (it addresses health and environmental issues)

II. Learning components

A. Readings: To help meet the objectives, the following book and handout are required (available on Amazon or at UNT bookstore). The newest 8th edition of the Weitz book is excessively expensive ($112 used). Therefore, we will be using the 7th edition and I can cover any more recent information of importance (e.g., Inflation Reduction Act of 2022)

“Environmental Problems and Society” available on Yeatts’ website (www.yeatts.us)

B. Class time: will be focused on the objectives through lectures, class discussions, movies, small group activities, and guest lecturers.

III. Course Policies

A. Class Attendance: regular and punctual class attendance is expected. It will be difficult to master all the material if class is missed. While students will not usually be penalized for missing class they will be penalized for coming to class late or leaving class early since these disrupt the class. If you need to come late or leave early, please let Dr. Yeatts know beforehand. Students can gain extra credit points by attending class (see below). Students who miss a lot of class will be given NO leeway in grading and may lose points while students who miss no or only a few classes will be given
MUCH leeway in grading and may gain points. For example, a recent student missed more than half the classes, had a test grade average of 69, and wanted one point added to his/her final grade in order to receive a “C”. The student got a “D”. Another student missed only a few classes had an average grade of 88 and was given two extra points to receive an “A”.

B. Academic integrity: as the student guidebook points out, academic integrity is required. Plagiarism and cheating will result in failure and a report to the Dean.

C. Acceptable Student Behavior: Student behavior that interferes with an instructor’s ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated. Students engaging in unacceptable behavior (including continual texting during class) will be directed to leave the classroom and the instructor may refer the student to the Center for Student Rights and Responsibilities to consider whether the student's conduct violated the Code of Student Conduct. The Code of Student Conduct can be found at www.unt.edu/csrr

D. Special Needs: UNT’s counseling center provides free career and personal counseling to UNT students (up to 8 sessions per year). Appointments can be made by calling 940-565-2741. For our class, appropriate adjustments and auxiliary aid are available for persons with disabilities. See Dr. Yeatts and/or call 817-565-2456 (TDD access 1-800-735-2989).

E. Cell Phones and texting: you should know that many professors and instructors find it insulting when a student is constantly texting or otherwise using their phones during class. Consequently, if the time comes that the student could use some “leeway” in her/his grade, and the student has constantly used his/her phone during class, no leeway will be given and points could be removed.

F. Laptops: may not be used in class unless the student sits in the first or second row. Unfortunately, past experience shows that some students with laptops use them for purposes other than the class and this, in turn, distracts students around them.

G. Office Hours: I enjoy meeting with students a great deal. I learn a lot and I hope they do as well. Please email me (yeatts@unt.edu) so we can find a day/time that works for both of us. I enjoy getting to know students and can be very helpful if given the chance. I will be happy to discuss the course material, your progress in the class, your plans for the future, personal issues, need for a letter of recommendation, or anything else of interest/importance to you. Some students will meet with me just to introduce themselves and share a bit about their activities and progress at UNT and I enjoy these meetings very much.

H. If unexpected problems develop for you during the semester (e.g., health, emotional issues, family disruptions), please contact me as soon as these become apparent. I can then work with you to develop a plan that will assist you. Students, who approach their instructors/professors when problems develop, are much more likely to receive help
and consideration. Don’t wait until the end of the semester to inform the professor of problems because it will be too late to find a solution. This is a good rule-of-thumb for any class you take.

I. Grading: final grades will be based on the following:

1. Four (4) tests will be given worth 25% each—your four test grades will be averaged together to obtain your final grade. The fourth test will not be cumulative. The format is expected to include multiple choice and true/false questions and one discussion question. Grades will be posted on Dr. Yeatts’ web page under the code number you provide on the student information sheet you turn in the first day of class. (go to:  www.yeatts.us, click on 3120, then click on Grades).

   You are responsible for using the restroom prior to the beginning of a test so do not ask to use the restroom in the middle of a test (unfortunately a few of us would use this as an opportunity to review our notes in the middle of taking the test).

2. Test Schedule:

   - September 26 (Mon.) Test 1 25%
   - October 19 (Weds.) Test 2 25%
   - November 21 (Mon.) Test 3 25%
   - December 12 (Mon.) Test 4 (during exam week, 1:30-3:00) 25%

3. Make-up Tests: may be allowed typically within one week from the original exam day. The test score will be reduced by one letter grade unless there is documentation or other means of verifying an illness or other serious situation. On the other hand, if you have not missed any class and you oversleep and miss the test (or some other less serious situation), this may be excused or very few points deducted.

4. Class Participation: Those who contribute meaningful, thoughtful, and knowledgeable comments/ideas will receive extra points added to their final grade if their final grade is close to the next higher grade and s/he has not missed a lot of classes. For example, an 88 could be raised to a 90. Similarly, those who attend all (or almost all) classes will receive extra points.

5. Extra Credit Opportunities: There are two ways to obtain extra credit. Please see the “Opportunities for Extra Credit” below for details.

J. How to Study for Tests:

1. Read carefully and give thought to the assigned chapters and readings to be covered on the test (ideally keep up weekly).
2. Ideally, read the assignments before they are discussed in class so you are more prepared to contribute to discussions.
3. Learn the major concepts (bolded and italicized concepts) in the chapters and what they mean. Pay attention to section headings within the chapter—what are the points being made in the section (for the handout in particular pay attention to the headings and subheadings—ask yourself: what is the point being made).

4. Know the answers to the study guide questions that are placed on Dr. Yeatts’ web page (www.yeatts.us). These questions were developed from the test questions. If you can answer the study guide questions you will increase your chances of knowing the answers to the test questions. However, do not rely solely on the study guide if you want a good grade.

IV. Topics to be Covered/Reading Assignments

All Chapter assignments refer to the Weitz text book (7th edition). NOTE: Videos listed below may or may not be shown depending on time available.

Week 1 (August 29 and 31):
A. Overview of class
B. Chapter 1: Sociology of Health, Illness, and Health Care

Week 2 (Sept 7) (NO CLASS on Sept 5, Labor Day):
A. Chapter 1 continued;
B. Chapter 2: The Social Sources of Modern Illness (non-medical factors contributing to poor health)
C. FOODMATTERS: Let Thy Food Be Thy Medicine—a DVD

Week 3 (September 12 and 14):
A. Chapter 2: The Social Sources of Modern Illness (non-medical factors contributing to poor health)
B. FOODMATTERS: Let Thy Food Be Thy Medicine—a DVD (continued)
C. Film describing the characteristics of “social class.”

Week 4 (September 19 and 21)
A. Chapter 3: The Social Distribution of Illness in the U.S.

Test 1 on chapters 1-3 and in class materials (PowerPoint slides), September 26, Monday

Week 5 (September 28)
A. Chapter 4: Illness and Death in the Less Developed Nations
B. SICKO (movie)
   https://freedocumentaries.org/documentary/sicko#watch-film

Week 6 (October 3 and 5)
A. Chapter 4: Illness and Death in the Less Developed Nations
B. Chapter 5: The Social Meanings of Illness
Week 7 (October 10 and 12):
A. Chapter 5: The Social Meanings of Illness
B. Chapter 6: The Experience of Disability, Chronic Pain, Chronic Illness
C. SICKO (movie continued)
   https://freedocumentaries.org/documentary/sicko#watch-film

Week 8 (October 17):
A. Chapter 6: The Experience of Disability, Chronic Pain, Chronic Illness
B. How Gluten and Modern Food Processing Contribute to Poor Health
   www.mercola.com scroll down to July 2 (27 minutes)

Test 2 on chapters 4-6 and in class materials, October 19, Wednesday

Week 9 (October 24 and 26)
A. Chapter 7: The Sociology of Mental Illness
B. Pesticides are poison:
   www.mercola.com scroll down to July 6, Rachel Carson (8.5 minutes)
C. Movie on Freud

Week 10 (October 31 and November 2):
A. Chapter 8: Health Care in the U.S.
B. Pesticides are poison: YouTube “We’re #37”:
   http://www.youtube.com/watch?v=yVgOl3cETb4
C. Antibiotic Resistance: What Promotes It, How Can It Be Beat (29 mins)
   www.mercola.com scroll down to July 9 (29 minutes)
D. www.mercola.com scroll down to July 6, Rachel Carson (8.5 minutes)

Week 11 (November 7 and 9)
A. Chapter 8: Health Care in the U.S.
B. HANDOUT: Environmental Problems and Society

Week 12 (November 14 and 16):
A. HANDOUT: Environmental Problems and Society
B. Globesity: www.youtube.com/watch?v=MGL3;T5MMdQ

Test 3 on Chapters 7-8; handout on environment, November 21, Monday
(No Class, Wednesday, November 23, Thanksgiving 24 – 26)

Week 14 (November 28 and 30):
A. Chapter 9: Health Care Around the World

Week 15 (December 5 and 7):
A. Chapter 10: Health Care Settings and Technologies
B. PowerPoint slides on Alternative Medicines

Test 4: on Chapters 9 and 10 AND PowerPoint slides; December 12, Monday, 1:30 – 3:00
(the day our class period is scheduled for our exam)
Opportunities for Extra Credit

Library Research Paper (extra credit)

Write a library research paper on a health related topic to identify scholarly, peer-reviewed research articles on the topic (you can use popular magazines such as Time or “internet” sources but these should be no more than 10% of your citations/references). Write a 5 - 10 page paper, double spaced, and use Time New Romans font size 12 with one inch margins except for the left side which should be 1 ½ inches. You can receive up to 3 extra points added to your final grade depending on the apparent effort put into the paper (wasn’t written the night before) its organization, and how well it is researched and written (e.g., reference to scholarly articles—it should not be an editorial or your opinion about the topic, it is a review of what researchers has found on the topic).

For the paper, do the following: (1) get Dr. Yeatts approval of the topic; (2) discuss the topic using peer-reviewed journal articles and citing them in the paper and providing the full citation at the end of the paper (a bibliography or reference list); and (3) for a fourth extra-credit point, you can present your paper to the class, if approved by Dr. Yeatts. The paper must be turned in by December 14 and you must notify Dr. Yeatts you plan on turning in a paper. However, if you plan to present it in class, it must be turned in by November 21. If you want to present your paper to the class, you must provide a power point presentation to Dr. Yeatts prior to the presentation (this will give the professor an opportunity to evaluate the quality of the presentation you want to give to the class). If you present your paper, use powerpoint or some other way of displaying interesting pictures, etc. If you wait until the last few days before this is due, it will show in what you turn in and the number of points received will be less or none. Papers will be checked for plagiarism.

2. In-Class Assignments

Students will be given the opportunity to obtain extra credit points during class. For example, students may be asked to work in groups of two to five (being cognizant of covid issues) during class to solve one or more problems and then each student will turn in their own answer(s) to the problem before the end of class and one or more extra points will be added to the student’s next test grade. Students who come to class late will not get an extra point unless they have notified Dr. Yeatts that they would be late that particular day. Similarly, students who leave class early will not be eligible for these extra points unless notifying Dr. Yeatts. A student who does not miss class will typically accumulate 6 – 8 points to be added to her/his next test grade.

***If our class is moved on line, we will keep everything as it is currently planned but have our classes through zoom (meeting id: 9403800009). Students who log in to the class and are visible will receive an extra point for that day.
